

### FULLY SUPERVISED

Pendants communicate with base station every 13 hours to ensure proper connection. Central station is contacted in the event of a power outage, low battery or loss of RF signal. Central Station is contacted every 52 hours if 4 tests are missed.

### AUDIBLE PROMPTS

Audible prompts can be heard during system set-up, system programming, testing and full system check. English, Spanish and French voice prompts are standard.

### SOS CALL

Emergency call is placed by either pressing the 'EMERGENCY' button on the pendant or on the base unit. Braille lettering is included on the base unit buttons.

### BATTERY BACK-UP

Base unit includes rechargeable batteries for up to 24 hours of emergency battery power in the event of a power outage.

### CARETAKER BUTTON

Program an additional phone number to call family, friend or a nurse assist hotline. The programmed number is called only upon activation from the 'CARETAKER' button on the base unit.

## Are you concerned about your loved one's safety?

Of the 35 million Americans over 65, about 1 in 3 will fall in a given year.

Seniors are hospitalized for fall-related injuries 5 times more often than they are for other injuries.

50% of people who fall require assistance from someone else to get up.
